

Executive Liability Insurance for the Biotechnology Industry

BIO-Monitor Executive Liability Program

Since 1997, Monitor Liability Managers, LLC has had the privilege of serving as the preferred provider of Executive Liability Insurance for your industry through our direct affiliation with the Biotechnology Industry Organization (BIO), the international trade association for the biotechnology industry. This affiliation includes more than 39 state and regional biotech associations (see reverse side).

We have extensive experience underwriting Executive Liability Insurance for biotechnology companies. This program offers:

- For publicly traded companies
 - Directors and Officers
 - Employment Practices Liability
- For privately held companies and nonprofit entities
 - Directors and Officers
 - Employment Practices Liability
 - Fiduciary Liability
 - Crime Insurance

The risk to your business is real and significant, including but not limited to:

- Antitrust violations
- Breach of fiduciary duty
- Securities fraud
- Unfair competition
- Discrimination
- Wrongful termination
- Harassment
- Retaliation

Monitor has the solutions to manage those risks. Our liability programs are designed with the requirements of the innovative biotechnology industry in mind.
