

# MyMonitor Producer Portal

## What is MyMonitor?

MyMonitor is an online tool that helps producers streamline the submission, quotation and binding process. Producers can access MyMonitor anytime without being limited by underwriting business hours. MyMonitor will help you conduct business more efficiently.

### Available Products

- Accountants Professional Liability (APL)
- Employment Practices Liability (EPL)
- Management Liability (ML)
- Nonprofit Management Liability (NP)

### Features

- Indications for APL, EPL, ML and NP products
- Real-time quoting authority available for instant quotes
- Complex submissions that do not qualify for an instant quote are immediately referred to your underwriter for further handling
- Quotation options available for a range of limits for each product
- Bind online once submission conditions have been satisfied
- Pre-filled applications to send to your customers for signature
- Loss-run reports are available immediately
- Searchable history of all online files including active, bound and declined submissions
  - Search your current or past files including auto renewals or submissions created online by product, status, insured details and policy period
- Customize the easy-to-browse file summary
  - Archive your current online quotes and binders
  - Store and organize file documents

- Edit and revise submission information in order to receive updated quotes
- Track current files and determine if conditions have been satisfied to issue a policy

### Benefits

- 3% commission bonus for submissions entered and quoted in MyMonitor that are subsequently bound (either online or by the underwriter)
- Save time with easy, quick and paperless quoting, binding and managing of files
- Quotes are delivered to your email inbox within minutes
- No waiting for an email to bind your files – login anytime and bind online
- Quick access to all file documents
- Send, save and view correspondence relating to any file

MyMonitor continues to develop in response to producers' needs. Please visit the features page for an updated list of benefits.

### Get Access to MyMonitor
